

Roman Battles

Year 4 have been learning all about the Roman occupation of Britain. To finish this topic we held a 'battle' on the school field.

On Tuesday we all made different objects to prepare for our battle that we had on Friday. We made swords, shields and helmets. We also made catapults with Mr Taylor because the Romans used them in some of their battles. - Jake

We made some beautiful helmets. There were diamonds everywhere. I sprinkled quite a lot onto my helmet, it was quite sparkly and I looked really important. - Serena

Before our battle Mr George explained some of the Latin words we would be using. Mr George was the centurion and we were the Romans. It really felt like we were in 60BC! - Shelby

Mr George treated us like real Romans. - Paige

We learnt to form a tortoise which was tricky. I had to put my shield up so it protected my head when we fought the Celts. - Varsha

When it was our turn to be the Celts we had to bang our shields with our swords to make the Romans scared. - Torin

I was super excited about the battle. We scared off the Celts – I scared their socks off! - Lorenzo
