

Year 4 Outdoor Adventurous Activities (OAA) Day

I was really pleased that the children in my team worked together so well. I was proud of their problem solving skills and how everyone felt included throughout the day. The games were designed to get the children talking and they put a lot of trust in each other to complete each task quickly and safely. I agree with the children that the best part of the day was definitely the terminator. I was so happy to beat Miss Calver! Miss Frost

I raced Beth on the terminator and I won. It was fun and I felt happy to win. Caylan HB5

I did the spiders' web and it felt brilliant. I was very good at the rope blindfold but was very worried about Jessica bumping me into a tree but she didn't. We had to trust the people in front of us. Rome HB5

The terminator was really fun and bouncy but it was hard because the obstacles were big. I was able to get past some by pushing, but going over them was very difficult. I was really pleased when our group were the only group to use one rope to pick up and move the poison! Heath HB6

I got to race on the terminator and beat every person! I felt really scared when I first went on because everyone was really fast and I didn't want to lose. On the blind rope walk I was scared about hitting my head on a tree but I didn't because Jedi was giving me really good instructions. I loved it when I went onto the one with poison because we tried lots of new things and used Freya's ideas. We managed to pick up and move the poison three times! Poppy HB6

My favourite part was when we did the board at the end. It was my favourite because we had to run around the field quickly and complete lots of activities. The best one was the tarp-turner because it was really hard as it was just a mat and no one was allowed off until it was turned over. This gave us the most points to move diagonally on the board. Even though we didn't win over all, we had an amazing time. Shelby HB7

I liked it when I went on the terminator because I got to race my friends and it was very fun. I won once against Ben. I also enjoyed the spiders' web where we had to get through the different sized holes without touching the rope. Our group got through in 47 seconds. We had a race against time to touch a circle of cones with numbers on them in order and got the record time of 25 seconds. I enjoyed working as a team and having our own team name and action. It was a brilliant day and I would love to do it again. Najma HB8
