

GERMANY

The journey to Germany was so long! But it was worth it, Germany was one of the best experiences of my life.

Germany

My favourite part of going on the Germany residential was when on Thursday we visited Rudesheim. I especially enjoyed the music museum because it showed that electric guitars, drums and basses aren't the only instruments in the world.

Germany

My favourite day was Tuesday because we went to Koblenz. We did loads of fun things including going on cable cars and playing 10-pin bowling. At bowling, my group which had David and I, both won with 75 points each.
