## Sports Relief 2012

by **Saseeban Rathakrishnan**  
and **Ted Denison**

On the 23<sup>rd</sup> March 2012, Loughton School ran a mile to raise money for Sports Relief. The money will go to people who can't pay for food or drink. The money also goes to people in other countries. We interviewed some of the children who ran the mile.

We asked **Jake Gardner**, 'What was the best part of the course and why?'

He said 'the end!'

'Why?'

'Because you know that you've done a good achievement for Sports Relief.'

We asked, 'Was it a good course and why?'

'Yes, because it wasn't a very simple route and it wasn't boring.'

Next we interviewed **Adam Cross**.

We asked, 'What was the best bit of the course?'

He said, 'the bit when we went out of school because I liked the freedom!'

'Was it a good cause?'

'Yes, because I know the money is going to do good.'

Finally, we interviewed **Tyrone Mhlanga**.

We asked, 'Did you think you might not finish the mile?'

He said, 'No because I had to run much more in the cross-country races.'

'Do you think the money you raised will change people's lives?'

'Yes I do because people are living in poverty and that money will help them.'

## Ball Skills

by **Lauren Gale** and **Kapina Balakumar**

Hi, we're going to tell you about the ball festival that Loughton had at Leon School. We had to verse another three schools and, guess what, we won the competition! HOORAY! We had to travel to Leon with Mrs Varty in her car. Our points were 17, 62 and 36. These are the children who came: **Jessica Drury** and **Eathan Cole**(HB16), me - **Lauren** and **Daniel Morgan** (HB 15), me - **Kapina** (HB14), **Harry Cobby**, **Caitlin Greaves** (HB13) and **Bobby**

**Gordge** (HB 11). We enjoyed it a lot. We all had a brilliant time. All of us were sweating when we finished!

What do insects learn at school?

Mothomatics!

More About Hamsters

Dwarf hamsters are not like the big fat ones. They only grow as long as, well - half a pencil. If you give them too much food they will go fat and then they will be greasy. Every night me and my mum hear both of them on the wheel. My mum says they are like Michael Jackson. They both go on the wheel at the same time. Because they eat a lot, they drink a lot - and when I say a lot, I mean a lot! I love my dwarf hamsters and they love me.

The Beauty and The Glory

The beauty  
And the glory,  
Of the Titanic  
Setting off for her maiden voyage.

Everything is calm,  
Not a worry in the world,  
Thump, bang crash,  
Is there any harm?

Send the first lifeboat,  
We're sinking,  
We're sinking,  
Please let the lifeboats float.

Year 3 Homework

Year 3 homework is sometimes fun. The teachers sometimes stretch our brains. We think that the teachers give out a good mixture of wordwork, home-work and maths work. It's also good that we get fun, creative homework. They give us a mixture of easy and hard which we like. Year 3 love homework.

Defreitas**

Down in the deep, dark blue  
Is a water-grave for most,  
There lays the Titanic  
Goodbye, Goodbye.

**Amie Warner  
Corissa Richardson**

In our last edition **Max** and **Gautami** asked what you thought of the iPads. Here are some replies: Do you like using the iPads and why?

**James Gorgiou** replied, 'yes because of the maths games.' **Gabi Pepper** said, 'I like the iPads because you can learn by playing games and you can also do research.'
